GoldFax

SAMSUNG

Enterprise Fax Server Solution
at a Small Business Price

Reduce Costs

- Fax paper documents (signed contracts, etc.) from **Samsung XOA MFPs** with GoldFax integration - *no extra cost for Samsung Fax Expansion Kit and MFP fax telephone line*.
- **Eliminate unnecessary printing costs** - toner, ink, paper, maintenance, etc. Fax from PC without printing. Receive faxes directly into email or network folders. **Go Green!**
- **4 to 1 savings** - replace 4 fax telephone lines with 1 shared GoldFax line - *instant ROI!*
- **Eliminate** expensive analog fax lines ($25-100 per month!).

"GoldFax **reduced our costs** for phone lines and supplies, **increased the productivity** of our people, and **protected the privacy** of our faxed documents."
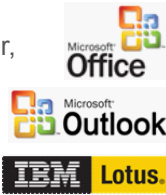

Improve Productivity

- **Automated routing** of inbound faxes into user's email or document folders - using personal Direct Inward Dial (DID) fax numbers, CSID, or Caller ID.
- **Send faxes directly** from Microsoft® Office or any application that can print, any email (Outlook, OWA, Notes, etc.), or any internet browser (PC or Mac).
- **Automate faxing** of **critical business documents** (Purchase Orders, Invoices, Confirmations, etc.) from your financial, ERP, CRM, Document Management systems: Oracle™, SAP™, Crystal Reports®, Microsoft Dynamics™, SharePoint®, Sage™, etc.
- **Integrate with any software** on any computing platform including Windows server, UNIX®, Linux®, Solaris™, AIX®, OpenVMS™, IBM AS/400®, and any web-based application.
- **Notifications** of fax success or failure sent to email. No waiting for printed confirmations.

Increase Security

- **Eliminate** fax documents from laying out in the open. Protect confidential information.
- **Secure faxing** - user name and password authentication at PC and Samsung MFP.
- Auto archive all faxes received and sent for **compliance, auditing, and records**.
- Integrates with **any document or content management system**.

Send faxes from Microsoft Office, any application, any email, any internet browser, and any Samsung XOA MFP integrated with GoldFax.

Send faxes securely without printing directly from Windows Office or other desktop applications, any email system, or any internet browser (PC or Mac). GoldFax is just a virtual printer on the network.

Walk up faxing - Fax paper documents from Samsung MFPs. Select GoldFax from the MFP touch screen, enter a fax number, and press Scan and Fax. *No MFP Fax Expansion Kit or MFP dedicated fax phone line is required.*

Receive faxes in email, GoldFax Inboxes, network folders, or on printers.

Automated routing of inbound faxes. If your telephone system supports Direct Inward Dial, you can have low cost personal and confidential fax numbers for key people. GoldFax routes faxes directly to individuals or group mailboxes giving you complete distribution control and security.

Archive Received and Sent Faxes.

Automatically archive all received and sent faxes into GoldFax Archiving and Reporting System or into **any document** or content management system.

Automate - Send from Production Applications.

Automate sending of faxes from your production applications. GoldFax can fax-enable any software application.

Automate faxing of critical business documents (Purchase Orders, Invoices, Confirmations, etc.) from your financial, ERP, CRM, ECM, Document Management systems like Oracle™, SAP™, Crystal Reports®, Microsoft Dynamics™, Sage™, etc. GoldFax will lower your costs and improve your business processes. No more printing and manual faxing.

Technical: Easy to Install and Use. Low resource usage. Low ongoing cost.

GoldFax integrates with any telephone system - **analog, digital T1/E1,** or **Voice over IP**.

GoldFax software installs on a Windows server and works with Brooktrout fax boards or **Fax Over IP**. *You can also get a pre-configured, HP or Dell server appliance.*

GoldFax is built on Microsoft's **.NET technology**, runs on a Windows server, is Citrix "friendly", works with Terminal Services, and runs in any VM environment.

Security Flexible User ID / password protection.

Customers: from small businesses to large enterprise organizations.
