

GoldFax Security Bulletin – Urgent – for **Windows Server 2003** and **Windows XP**

An issue has been identified with recent Microsoft Security Updates that may cause the GoldFax server application and the GoldFax Windows client application to fail. These operating systems are affected:

- ❓ Windows XP Service Pack 3
- ❓ Windows XP Professional x64 Edition Service Pack 2
- ❓ Windows Server 2003 Service Pack 2
- ❓ Windows Server 2003 x64 Edition Service Pack 2

The immediate circumvention is to remove Microsoft Security Update **KB982802** and/or **KB2360937** and reboot the workstation(s) and servers.

More information is available at <http://www.microsoft.com/technet/security/bulletin/MS10-066.mspx>

The GoldFax engineering team is working on a permanent solution. We will notify you when a GoldFax software update is ready.
