For Immediate Release:

GoldFax announces a New release - GoldFax 8.0

Irvine, CA (November, 27 2012) - DPD International, the makers of GoldFax, announced today the availability of a new release of their network fax enterprise software, GoldFax 8. The new release delivers enhanced functionality, extended support for MFP integration, archiving options with GoldFax Insight and new GoldFax Cloud offerings.

GoldFax is an enterprise level fax server solution offered at a small business price that enables users to successfully and securely deliver critical fax documents from any desktop, email, mobile device or MFP.   GoldFax 8.0 extends the options and flexibility of the GoldFax solution to meet corporate and regulatory compliance.

A key offering with the latest release of GoldFax are the advanced GoldFax Cloud based solutions.

"We are excited to formally release GoldFax 8.0 which includes a wide range of new offerings and performance enhancements," said Bill Vanek, Director of Sales for GoldFax. "Business needs for cost reduction, security, compliancy, and disaster recovery have intensified over the past year forcing more organization to review and update their organizational processes and infrastructure related to fax document delivery. The new GoldFax Cloud offerings allow us to implement GoldFax faster and easier without the need or cost to integrate with a customer's telephone system. GoldFax Cloud leverages the access to cloud based services while maintaining control and security of confidential fax documents. GoldFax Insight provides a robust fax archiving solution with advanced searching to meet compliance regulations. We are also continuing to improve our integrated solutions with the industry leading MFP providers."

GoldFax 8.0 includes several new features including:
- New GoldFax Cloud – Send/Receive faxes via GoldFax Cloud Fax Telephone Service. Replaces your existing fax telephone service.
- New SIP Trunk Provider Support - fax via "virtual lines" with an Internet connection using SIP Trunk Providers including babyTEL.
- New FoIP (Fax over IP) support with XCAPI
- New Disaster Recovery Capability using GoldFax Cloud or SIP Trunk Providers

- New GoldFax Insight Option - Archive, search, retrieve, and reporting on all sent and received faxes with an easy to use web browser based interface.
- Enhanced GoldFax Connectors for Kyocera HyPAS MFPs, Samsung XOA MFPs and Sharp OSA v4 MFP support with a customizable GoldFax interface and Single Sign-On (SSO) support.
- Integration with Canon, Lexmark, Muratec, Toshiba, and XEROX MFPs.
- Performance enhancements.
